# L SCOPE | INTEGRATED LOUPES AND LED HEADLIGHT

## PRECISION 2.5X MAGNIFICATION OPTICS

- 2.5X is the sweet-spot, allowing for the clearest, distortion-free visualization possible while maintaining a wide field of view

## SURGICAL QUALITY LED ILLUMINATION

- Bright as daylight (6000K) for accurate color
- 55,000 lux for maximum illumination
- Dual lens system provides superior edge-to-edge uniformity across the entire field of view
- Dimmer function provides 7 evenly spaced levels of illumination
- LED headlight works with loupes in an up or down position

## ERGONOMIC

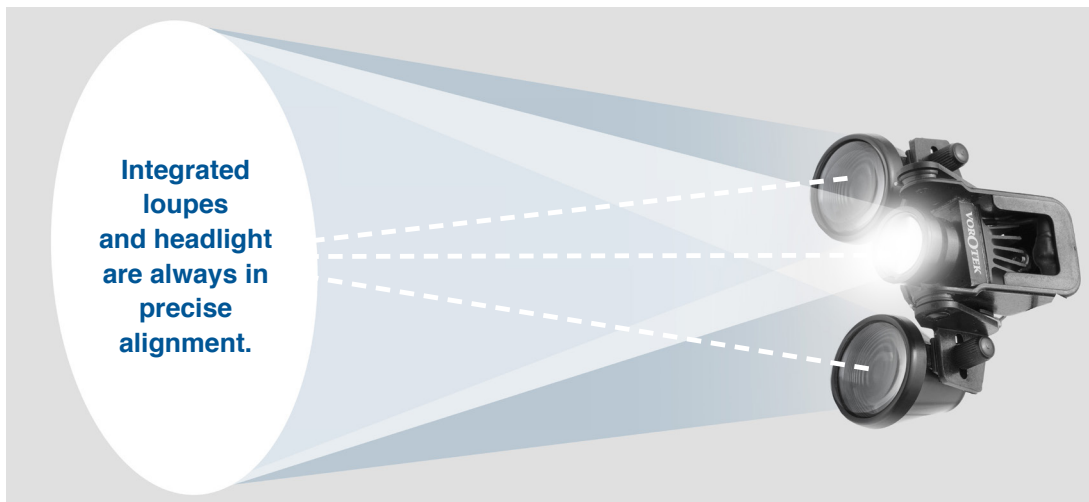

- Lightweight, titanium frame, loupes and LED light together are less than 100 grams
- Reduces neck pain and eye strain with its ideal angle of declination

## PRECISE FLIP-UP DESIGN

- The loupes can be easily rotated in and out of use, returning back into the exact set-up position
- Upward rotation of the loupes allows uninterrupted vision

## PORTABLE AND AC POWER SUPPLY

- Lithium-ion battery pack provides 10hrs of use and fully charges in 4 hours. Charger/AC power supply can be used to provide continuous use
