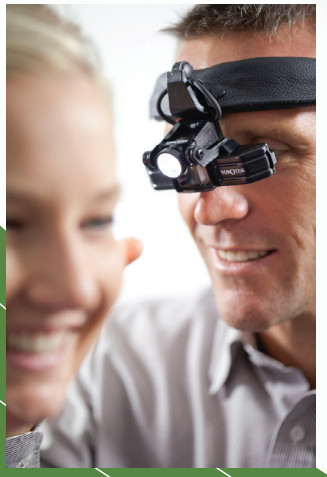
O SCOPE™

INTEGRATED CONVERGED
BINOCULARS & LED ILLUMINATION
FOR AUDIOLOGISTS



SEE WHAT YOU'VE BEEN MISSING.

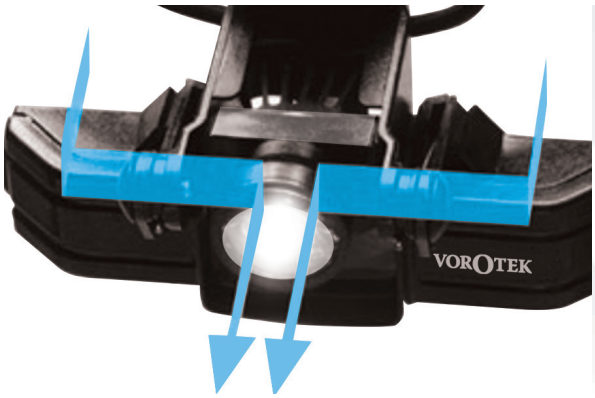
The Vorotek O Scope™ allows audiologists to achieve accurate depth perception in the ear canal, allowing both eyes to work together naturally — making clinical procedures safer, easier, and quicker.

- BRILLIANT LED ILLUMINATION
- HANDS-FREE
- PORTABLE

Ideal for:

CERUMEN REMOVAL
DEEP CANAL FITTINGS
DOME REMOVAL
EAR MOLDS

VOROTEK



O SCOPE™

INTEGRATED CONVERGED BINOCULARS & LED ILLUMINATION FOR AUDIOLOGISTS

3-DIOPTER CONVERGED BINOCULAR OPTICS
Allows both eyes to work together naturally for accurate and immersive view of the ear canal, making cerumen removal faster and easier for user and patient.

LED ILLUMINATION
High-power, 55,000 LUX illumination provides pure white, shadow-free illumination in the field of view. Works with binoculars in the up or down position.

FULLY INTEGRATED, ERGONOMIC DESIGN
Head-worn, lightweight, and hands-free, the fully integrated design ensures that the converged binoculars and illumination stay precisely aligned.

CONVENIENT FLIP-UP ACTION
Binoculars can be rotated in and out of use, allowing user to comfortably talk to patients without ever having to remove the O Scope.

PORTABLE AND AC POWER SUPPLY
Lithium-ion battery pack provides 10 hours of use and fully charges in 4 hours. Charger/AC Power Supply can be used to provide continuous use.

TWO ERGONOMIC O SCOPE™ MODELS

SpecFrame
Fully adjustable to match the user's interpupillary distance. Can be fitted with the user's prescription lenses. Ideal for individual use.

HeadBand
Fully adjustable to head size and user's interpupillary distance. Can be worn over prescription lenses. Ideal for shared use.

O SCOPE™ KITS

Standard Kit:
